The Managing Director,

Memo No. 4985 /HERC/Tariff, dated 31.03.2014.

Subject: Case No. HERC/RA-8 OF 2013 (Filing of the Petition seeking review and / or modification of the order no. HERC/PRO-26 of 2012 dated 14.03.2013 issued by HERC on the petition filed by DHBVNL for providing uninterrupted supply of power on selected Urban and Industrial feeders and applying reliability surcharge thereon.

&

Petition No. 20 of 2012 (Providing uninterrupted supply to private hospital having connected load of more than and equal to 250 KW by levying additional charge.

The Commission's order dated 14.03.2013 against which DHBVNL had preferred a review petition was disposed of with the following observation:

*"In view of the above discussions, the Commission allows the petition as modified in the relevant paragraph **for a period of one year till 31.03.2014**"* (emphasis supplied).

In view of the above and the fact that no consumer has opted for the dispensation i.e. uninterrupted supply of power and reliability surcharge thereon, the petitions have become infructuous and hence dismissed.

This issues with the approval of the Commission.
